Brussels, 5th March 2018

Dear Friends

*The idea is to organise a charity Ball to finance our **sustainable development projects in the Ivory Coast** : the traditions of Guérin-Boutron Chocolates also testifies its modernity today.*

Founded in Paris in 1775, Guérin-Boutron Chocolates ceased activity due to the Second World War. In May 2017 the production resumed.

Now 100% Belgian, Guérin-Boutron chocolates initiated the encounter of the Ivory Coast, world leader in the production of cacao, and Belgium, the realm of dark chocolate.

Our aim is quite ambitious, since we would like to establish biological / organic certification for the South eastern region of the Ivory Coast and at the same time to guarantee a strong humanitarian action by enforcing better revenues for the planters, to diversify the sources for income, to protect the environment, to fight against deforestation, to plant trees, to fight against child labour, to improve educational opportunities and to provide the right to drinking water and energy sources for all.

We take this occasion to associate the name of our prestigious Chocolate to social event dedicated to serve Humanity. From the European capitol, le Gala Dinner and Ball Guérin-Boutron revives the tradition of Balls so frequent in the "Years of Folly" such as those organised in the fashionable Palace of Dancing Saint-Sauveur in Bruxelles and in Montparnasse, Paris.

Hoping see you in many at this Gala event, I sincerely express my devotion to you and our humanitarian cause,

Johann Domas-Conzemius
